# Superly

Instructions

1 Introductory

1.1 Starting the System

- **Run the project jar**
- **Open the web browser and enter to the URL line- localhost:8080**
- **Press enter**

1.2 Menus

At (almost) each point when using the software you will be greeted by a menu.

Example – the Login Menu:

In order to choose an option out of the menu,
simply click the button associated with the wanted option, or if input is require, please enter the input to the correspond text box and then press the associated button.

For example,
To see your options as an employee you need to log in, that will be preformed as followed:
- **Enter your ID in the textbox**
- **Press the button sign in**

Note: you can login as an admin if you enter in the ID box "admin"

1.3 HomePage

When you want to get back to your home page you should click the "home" button (int the top of each menu), the menu which was your home page will be open

So when exiting the Employee Management Menu the Main Menu will be booted.

Note: if you are not login your homepage will be the Login page
